

Family Tree With Siblings

Grandparents, parents, and you with your brothers and sisters. Circle your own box.

The diagram is a family tree template. At the top, there are four boxes labeled "Grandparent". Each box contains a horizontal line for a name, followed by "Born" and "Died" with lines for dates. Lines connect the first two grandparents to a single box labeled "Parent" in the middle row. Similarly, lines connect the last two grandparents to another "Parent" box. These two parent boxes are connected by a horizontal line, which then branches down to a row of six boxes. The first box is labeled "Me" and is highlighted with a light green background. The other five boxes are labeled "Sibling". Each box in the bottom row has a horizontal line for a name, followed by "Born" and "Spouse" with lines for dates. The "Me" box also has a "Died" field with a date line.
